### SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, React, Gatsby
- **Backend:** Python, C#, .NET
- **Databases:** SQL Server, MongoDB
- **Tools:** Git, GitHub, Visual Studio Code, Postman
- **Soft Skills:** Technical Documentation, Agile Collaboration, Problem-Solving

### EDUCATION

B.Sc. Computer Science

University of Engineering and Technology (UET), Lahore

2022-2026 (expected)

### Relevant Courses:

- Web Development, Database Management Systems
- Object-Oriented Programming (OOP), Software Engineering

### PROFILE

Full-stack developer demonstrating expertise in end-to-end web development from user interfaces to back end. Combines technical proficiency in React, Django, and .NET with strong SDLC understanding (requirements gathering to deployment). Passionate about building scalable solutions with documentation-first approaches.

### WORK EXPERIENCE

#### Projects

**Event Management System (Full-Stack Web Application)** January-2025

- Designed and developed a platform for event creation, booking, and role-based access (admin/attendee).
- Created a relational database schema using SQL Server and integrated it with a .NET backend.
- Documented the project lifecycle (SRS, SDD, Testing Reports) following SDLC standards.

**Portfolio Website (Personal Project)** April-2025

- Built a responsive portfolio website to showcase projects, skills, and professional background.
- Optimized for performance and SEO using static site generation (Gatsby).
- Integrated interactive elements (e.g., filters, dynamic content loading) for improved UX.

**Business Frontend for E-Commerce Platform** February-2025

- Developed a responsive frontend for an e-commerce platform using React.js and Tailwind CSS.
- Integrated RESTful APIs for product listings, cart management, and user authentication.
- Optimized performance through lazy loading and code-splitting techniques.

**Static Site Generator (Gatsby) Project** December-2024

- Built a high-performance blog using Gatsby.js with Markdown support for content management.
- Implemented SEO best practices, including meta tags and schema markup.
- Deployed via Netlify with CI/CD pipeline for automated updates.

Project Collaborator & Technical Writer

- Produced comprehensive documentation for projects, including setup, functionality, and usage guides.
- Collaborated with classmates on various group projects, playing a key role in planning, execution, and delivery.
- Developed user guides and technical documentation to ensure clarity and usability.
